

UNIVERSITÀ DEGLI STUDI DELL'AQUILA

Prof. Lorenzo Gibilaro

Curriculum scientifico

(Aggiornato il 28/09/2017)

Lorenzo Giovanni Gibilaro

BSc (Eng) (London)

PhD (Loughborough)DSc (Eng) (London)

Professore Ordinario (1993-2009)Dipartimento di Chimica, Ingegneria Chimica e MaterialiUniversità degli Studi - L'Aquila, Italy

Emeritus Professor of Chemical EngineeringUniversity of London

Pubblicazioni recenti (dal 1990)

Libro

Fluidization-Dynamics.Butterworth Heinemann. 2001

Articoli su rivista

Scaling relationships for fluidisation: the generalised particle bed model.

P.U. Foscolo, L.G. Gibilaro, R. Di Felice, L. Pistone & V. Piccolo. *Chem. Engng Sci.* 1990 **45**1647.

Added mass effects in fluidised beds: application of the Guerst-Wallis analysis.

L.G. Gibilaro, R. Di Felice and P.U. Foscolo. *Chem. Engng Sci.*1990 **45**1561.

Particle interaction with a fluid-particle pseudo fluid.

R. Di Felice, S. Rapagna, L.G. Gibilaro and P.U. Foscolo.*Chem. Engng Sci.*1991 **46**1873.

Hydrodynamic scaling relationships for fluidisation. P.U. Foscolo, L.G. Gibilaro and R. Di Felice. *App. Sci. Res.*1991 **48**315.

Expansion characteristics of tapered fluidised beds

. R. Di Felice, P.U. Foscolo, L.G. Gibilaro, G.B. Wallis & R. Carta. *AIChE Journal.* 1991 **37**1668.

Sedimentation and fluidisation of binary-solid liquid suspensions.

R. Di Felice, L.G. Gibilaro and P.U. Foscolo. *Reviews in Chem. Engng.*1991 **7**171.

Experimental verification of the scaling rules for fine powder fluidisation.

S. Rapagna, R. Di Felice, P.U. Foscolo and L.G. Gibilaro. *Fluidisation VII* (eds O.E. Potter and D.J. Nicklin), Engineering Foundation, New York, 1992.

Cold modelling studies of fluidised bed reactors.R. Di Felice, S. Rapagna, P.U. Foscolo and L.G. Gibilaro. *Chem. Engng Sci.*1992 **47**2233.

The influence of temperature on the quality of gas fluidisation

. S. Rapagna, P.U. Foscolo and L.G. Gibilaro. *Int. J. Multiphase Flow.*1994 **20**305.

On the hindered settling velocity of spheres in the inertial flow regime.

R. Di Felice, L.G. Gibilaro and P.U. Foscolo. *Chem. Engng Sci.*, 1995 **50**3005-3006

Particle-particle and particle-wall frictional effects in fluidised beds.Z.

Chen, R. Di Felice, L.G. Gibilaro and P.U. Foscolo. *Fluidisation VIII*. Engineering Foundation, New York, 1995.

Infinitesimal and finite voidage perturbations in the compressible-particle-phase description of a fluidised bed. P.U. Foscolo, L.G. Gibilaro and S. Rapagnà *AIChE Symposium Series*, 1995, Developments in fluidisation and fluid- particle systems.(Ed. J.C. Chen) **91**No.30844-50.

Jump conditions for one-dimensional two-phase shock waves in fluidised beds: the effect of the jump in fluid pressure.S. Brandani, S. Rapagnà, P.U. Foscolo & L.G. Gibilaro *Chem. Engng Sci.*1996 **51**4639-47.

Effects of solid frictional interactions on the applicability of the fluid-dynamic scaling rules for fluidisation.Z. Chen, R. Di Felice, L.G. Gibilaro & P.U. Foscolo. *Chem. Engng Comm.*1997 **157**205-19.

Fluid pressure loss in slugging fluidised beds. Z. Chen, L.G. Gibilaro and P.U. Foscolo. *Chem. Engng Sci.* 1997 **52**55-62

Particle shedding in slugging fluidisation.

L.G. Gibilaro, P.U. Foscolo, S. Rapagnà, Y.A. Sergeev and R. Di Felice *Fluidisation IX*. Engineering Foundation, New York, 1998 125-132

The speed, direction and stability of concentration shocks in a fluidised bed.

Y. Sergeev, L.G. Gibilaro ,P.U. Foscolo and S. Brandani. *Chem. Engng Sci.*1998 **53**1233-1238.

Fluid-dynamic elasticity of a dispersed phase.L.G. Gibilaro and P.U.Foscolo. *Int. J. Multiphase Flow*. (Submitted for publication)

Two-dimensional voidage waves in fluidised beds.Z. Chen, L.G. Gibilaro and P.U. Foscolo. *Ind. Engng Chem. Research.*1999 **38**610-620.

Prediction of fluidisation quality.. Z Chen, L.G. Gibilaro, P.U. Foscolo and R. Di Felice. *Fluidisation IX*. Engineering Foundation, New York, 2001 53-60.

Particle packing constraints in fluid-particle system simulation.Z Chen, L G Gibilaro and N Jand. *Computers & Chemical Engineering.* 2003 **27**681-687.

Stability of the state of homogeneous fluidization under extreme conditions of operation.

P U Foscolo and L G Gibilaro. *Can.J. Chem. Engng.*2004 **82**417-423.

Wall effects for the pressure drop in fixed beds.R Di Felice and L G Gibilaro. *Chem. Engng Sci.* 2004 **59** 3037-3040.

Dimensional cold-modelling criteria for fluidization-quality.K Gallucci and L G Gibilaro.

*Ind. Engng Chem. Research.*2005 **44**(14) 5152-5158.

On the apparent viscosity of a fluidized bed.L.G. Gibilaro, K. Gallucci, R. Di Felice and P. Pagliai.

*Chem. Engng Sci.*2007, **62**294 -300.
