

Internship – Supply Chain Management and Humanitarian Logistics

The Logistics Institute – Asia Pacific, National University of Singapore, is pleased to offer an internship in the area of advanced supply chain management and humanitarian logistics. The candidate we are looking for is a student (preferably last year, Master) or a fresh graduate of MSc in Managerial Engineering. He/she will be working with the Humanitarian logistics team, supporting its daily activities. He/she will also make reports for the institute, participate to meetings with other teams of the Institute for the identification of innovative solutions to current problems faced by humanitarian logisticians. The ideal candidate must be a flexible person with strong team spirit and communication skills, with a strong interest to face new challenges and to get involved in all the activities carried out by the team.

Main Activities:

- Conduct research activity in areas such as Public Private Partnership for humanitarian response
- Develop innovative educational tools
- Develop case studies
- Conduct facility localization analysis
- Get involved in the development of warehouse management systems
- Reporting

Requirements

- Currently enrolled in a university programme (preferably last year, Master) or shortly graduated of Managerial Engineering (MSc)
- Fluent in English (both written and spoken)
- Strong interest in supply chain management and humanitarian logistics
- Strong team spirit and intercultural communication skills
- Strong Analysis and problem solving skills
- Multi-tasking and flexibility
- Interest in performing applied research activity
- Proficiency in the use of office package

Selection process – To apply for this position, please send your CV and a motivation letter to Ms Goh Mee Leng (meeleng@nus.edu.sg), and to Mr. Timperio Giuseppe (gtimperio@nus.edu.sg). Shortlisted candidates will be invited for an interview to conduct via skype.
